Contract Surety

Whether your client is building a school, paving a highway or constructing a solar farm, as a leading national provider of contract surety bonds, Surety Group, a member of Tokio Marine HCC, has the capacity, expertise and solution-driven approach to provide the necessary contract surety support.

Performance and Payment Bonds

Surety Group has the capacity and reach to support small and middle-market contractors for single bonds up to \$50 million. Our local knowledge and resources provide an outstanding combination of products and expertise for performance, payment and maintenance bonds.

We work with our contractors to grow their business and provide all levels of support. Our flexibility allows contractors to expand their surety credit availability to meet business demand.

Specialty Contract

Not all contractors have the ability to qualify for surety credit under the “traditional” model. Surety Group is uniquely equipped with the requisite skill and knowledge to underwrite special situations, companies and individuals. Today, few companies can insure the range and complexity of risks we encounter.

What is specialty contract surety?

Typically, our specialty contract clients are skilled contractors that may have one or more of these traits: no established surety credit; a desire to expand in size, scope, and/or territory and limited corporate financial base relative to credit needs.

How do we provide support for specialty contract surety?

We take the time to get to know and understand our contractors, allowing us to structure a program utilizing whatever terms necessary to provide surety credit. Some of the solutions we provide include working with the U.S. Small Business Administration Bond Guarantee Program as well as state and local bond assistance programs.

Additionally, we have the ability to secure unique forms of collateral, including letters of credit, cash, real property and pledged securities accounts. Our most common solution incorporates the professional management of construction funds. Our team of expert construction accountants work with contractors to provide reliable and timely accounting for projects of any size.

Our team of contract underwriters possesses the knowledge and creativity to offer solutions for your contractor clients. Call us and let our contract underwriters guide you through the submission process.
